

Version 4.4.7 Release Notes

2017-09-06

Contents

Introduction – 2

General – 2

Donations – 2

Forms – 2

Grant Applications – 2

Introduction

This document describes features which were added to release 4.4.6 of Sumac to create release 4.4.7.

General

You are now able to delete linked records directly from the history tab of a contact record.

Awarding Grants

You are now able to set up to 15 reviewers in the Awarding Grants area.

You are now able to use an “Unfinished Applications” search type in the Grant Application list. This search finds all forms that are not finalized, or missing a form all together.

Website Integration

You are now able to request that text is displayed online where an applicant is asked to attach filed. Use this text to give instructions such as maximum file size allowed.

Forms

In the Forms list, you can now show fields from any contact linked to that particular form.

Grow-Your-Own and Custom Records

When you are defining fields in a Grow-Your-Own or Custom record, you can now preview the record from within the Field Definitions list.

Memberships

In the Memberships list, you can now show fields from any contact linked to that particular membership.
